# What is Gematria

- Gematria, also known as numerology, is the calculation of the numerical equivalence of letters, words or phrases, and their relationship between words and ideas. There are different uses for numerology. One major use is for religious or biblical interpretations, and another use is for personal readings.

# History of Numerology

- Numerology can be traced back to the teachings of Pythagoras. The Pythagoreans had mysterious ideas about the universe and numbers. They believed that all notions could be reduced to number relations “all things are numbers.” This generalization came from observing music, mathematics, and astronomy.

# Different Kinds of Numerology

- The three major forms of numerology are: Kabbalah (Hebrew Mysticism Alphabet), Chaldean, and the Pythagorean. Each form has its own ideas and interpretations of numbers and the alphabet. Some people believe that by assigning numbers to their names and using birth date person can learn more about themselves, their career, relationships and even prophesize future events.

# Number Symbolology

- Some cultures and religions put certain meaning to specific numbers. For instance the number seven, in the Bible or other sacred books is used to symbolize a mysterious God force. Ex: creation took seven days, the seven thrones, the seven seals, seven churches (hills), the seven Devas of the Hindus' Bible, The seven angels of Chaldeans, the seven Amschaspands of Persian faith, the seven Sephiroth of the Hebrew cabala, ect. ect.

Durer, A Apocalypse: Seven Angels with Trumpets

Here is an example of basic numerology, using the Pythagorean chart. First assign a number to each letter, and then add up all of the numbers. If

you have multiple digits, just keep adding until you have one number.

1	2	3	4	5	6	7	8	9
A	B	C	D	E	F	G	H	I
J	K	L	M	N	O	P	Q	R
S	T	U	V	W	X	Y	Z	

ANGELA = 1+5+7+5+3+1 = 22  
 2+2 = 4  
 4 IS Angela's number

1	is ambitious, independent, and self-sufficient.
2	is supportive, diplomatic, and analytical.
3	is enthusiastic, optimistic, and fun-loving.
4	is practical, traditional, and serious.
5	is adventurous, mercurial, and sensual.
6	is responsible, careful, and domestic.
7	is spiritual, eccentric, and a bit of a loner.
8	is money-oriented, decisive, and stern.
9	is multi-talented, compassionate, and global.
11	is enlightened, intense, and high-strung.

As a final note, numerology can add a little fun to a rainy day, as long as it's all done for entertainment. Each person is the master of their own fate, and has the right to choose how they live their life. Numbers only have the power that you give them. You can read what you want to read in certain numbers and predictions.
